Quality control completed 24/08/2022

Results of quality control:

No	Quality control criterion	Checked	Comments
1	Description of the methodology of the determined parameters	YES	Standard methods used or literature provided
2	Data completeness	YES	
3	Data correctness	YES	
4	Correctness of the determined parameters/variables	YES	
5	Permissible values of determined parameters/variables	YES	
6	Completeness of metadata	YES	
7	Correctness of metadata	YES	
8	Completeness of files	YES	
9	Completeness of parameters/variables description	YES	
10	Correctness of viewing and download	YES	
	DECISION		Accepted for publication
