

Dataset: **Casleo and Swider fair weather atmospheric electric field / potential gradient during solar proton events 2008-2018**

<https://dataportal.igf.edu.pl/dataset/fair-weather-atmospheric-electric-potential-gradient-during-solar-proton-events-2008-2018>

Quality control completed 24/08/2022

Results of quality control:

| No | Quality control criterion | Checked | Comments |
|----|---|--------------------------|--|
| 1 | Description of the methodology of the determined parameters | YES | Standard methods used or literature provided |
| 2 | Data completeness | YES | |
| 3 | Data correctness | YES | |
| 4 | Correctness of the determined parameters/variables | YES | |
| 5 | Permissible values of determined parameters/variables | YES | |
| 6 | Completeness of metadata | YES | |
| 7 | Correctness of metadata | YES | |
| 8 | Completeness of files | YES | |
| 9 | Completeness of parameters/variables description | YES | |
| 10 | Correctness of viewing and download | YES | |
| | DECISION | Accepted for publication | |
